

Sun Senior News June 15 2019

The Water Volleyball Club membership has reached 120. Due to the ongoing efforts of the membership and the Steering Committee, the Club continues to grow. We did lose one long time member, Mr. Bill Majors, who relocated to the Bay area. On a personal note, Bill was a wonderful teammate; his kind words of encouragement and support on the water volleyball court will be truly missed.

Our awesome Social Coordinator has the first outdoor Water Volleyball event scheduled for Sunday, June 23rd, from 5:30 to 7:30 at the Orchard Creek Lap Pool. The Red Ball will be used during outdoor play; all levels Recreational and Competitive players will have the opportunity to enjoy playing together in the warmth of the sun. Rumor has it that treats may be served to sweeten the all level playing experience. In the past, members have invited friends and family members to cheer on their favorite players.

The Recreational Committee has been working diligently on the ranking process for the Competitive Red Ball players. The newly initiated Competitive Level for Red Ball Recreational players is a new option that has been greeted with enthusiasm during weekly team play. The Steering Committee approved the final Recreational Committee's proposal for Competitive Play on June 11th. A component of the approved proposal was an ongoing ranking process similar to Levels 4, 5 and 6. Red Ball Competitive players will need to check the website, Facebook Group and whiteboard at Kilaga Springs for information on the process and dates for the ranking process.

In addition to approving the Recreational Committee proposal, the Steering Committee approved the Absence Policy on June 11th. The new policy is an abbreviated version of the previous policy with minor changes. The motivation behind the newly approved policy was improved readability (one page with exhibits) and increased clarity. Members can read the new Absence Policy either on the website or Facebook Group. Steering Committee discussion of the Absence Policy is included in the Minutes for the June 11th meeting. The Steering Committee reported positive feedback from members utilizing the electronic sign up process for team play. Instructions and helpful tips are available on the website, Facebook Group and Kilaga Springs whiteboard.

The Steering Committee is continually working toward promoting communication with all members. It is not always possible to give members' concerns or questions the time and consideration a Steering Committee member would like either before or after a playing session. Questions or concerns from members are important and can be forwarded via email or presented at the monthly Steering Committee Meeting. Email: sclhwatervolleyball@gmail.com
