

## LH Water Volleyball

By Candy Castro

We recently had a special night of water volleyball because Tennis Club members ventured over to our KS court (pool). It was impressive how quickly the tennis members adapted their skillset to our game. Everyone went home with smiles after having good-hearted fun. We'd love to see some of the players join our great club. Water volleyball can definitely be an escape from either the hot sun or the chilly weather affecting outdoor sports. On June 1 around 20 members played ground volleyball at the Sports Pavilion grass area. Everyone had a lot of fun.

We are looking forward to another Sunday evening at the OC lap pool. July 15 from 5:30-7:30 PM our club will turn the lap pool into a volleyball court. Always bring a hat, sunglasses, towels, and sunblock. We need members to come early to help set up.

William Jessup University Lady Warriors will visit our club in August and again in November TBA. Our club enjoys a warm relationship with these ladies. They love to come to KS and relax their tired overworked muscles in the hot tub before and after a lively night of water volleyball with our competitive players. Please come cheer on the players. Many of us have rooted on the Lady Warriors at their home games. Look for an email and a flier closer to the game dates with all of the details.

This month we are recognizing one of our mentors and Level 6 player, Bob King, who joined our club in 2015. Bob is a lifelong athlete, and enjoys sharing his volleyball skillset with our members. He has mentored many newbies along with experienced members who want to improve their skillset level of water volleyball. Other mentors have worked with Bob to finalize important player evaluations, and he's always willing to help.

Bob and Mary came to Lincoln Hills from Granite Bay, where they lived for 30 years. This couple, married 43 years, was high school sweethearts. They have two children and one grandson. The reason for joining water volleyball was to allow the couple to play a sport together. They also enjoy bocce ball on Tuesdays. They have fun attending concerts and live theater.

As a landscape contractor, Bob said it was important to stay fit and healthy. The King family enjoys camping and has a cabin at Bucks Lake. Bob and his son have been snowboarding for 30 years. As vice president of the Ski Club, Bob arranges the car pools to the snow country. It seems he always wants to be helpful and kind. Our club is very lucky to have him introducing new members to the game of water volleyball.

The website [www.lhwatervolleyball.com](http://www.lhwatervolleyball.com) is updated regularly with the latest events and information. We also have a white board for announcements inside the KS pool. Those interested in joining our club can reach our recreational volunteers by using our club email [schwatervolleyball@gmail.com](mailto:schwatervolleyball@gmail.com).

See you in the water!
